Not so long ago, ALM was synonymous with interest rate risk management. And while interest rate risk remains a focal point of ALM, the scope today has broadened considerably.

Over the last few years, Enterprise Risk Management (ERM), has been the center of attention in the risk management world. ERM comprises the management of all the risks facing an enterprise—both financial and non-financial. Notwithstanding the much deserved fanfare ERM has received of late, there has been a lot of activity in the area of ALM, which remains a vital part of an overall ERM framework and scope.

BEYOND RISK MITIGATION

Companies recite different reasons for doing ALM. While some companies view ALM as a compliance and risk mitigation exercise others have started using ALM as a strategic framework to achieve the company's financial objectives. Some of the business reasons companies now state for implementing an effective ALM framework include gaining competitive advantage and increasing the value of the organization. The way in which ALM is practiced has also changed. Many will recall that ALM used to stand for "Asset Liability Matching" before becoming known as "Asset Liability Management". ALM has gone beyond measurement and mitigation of the risk exposure and contemplates an optimization framework for management of the financial risks.

FROM THEORY TO PRACTICE

One of the first things ALM practitioners discover is that a lot of what they need to know to do their jobs is not found in any textbook. While the current literature offers a sound grounding in ALM theory, there is a paucity of industry specific and nation specific guidance for the practitioner. ALM as practiced differs between banks and insurance companies and further differences exist for life insurance, P&C and pension plans. Nation specific issues relating to accounting methods, regulatory requirements and/or products offered shape the way ALM is practiced in Canada, the US and abroad.

This course covers the theory behind ALM then provides the practitioner with the knowledge needed that is not covered in the textbooks. The focus of the course is on ALM techniques and practices for insurance companies.

Through the case studies and in-class applications, participants will learn by "doing". The state of ALM practice in North America will be explored and participants will gain an appreciation of how the ALM paradigm has changed and how companies can take ALM beyond risk mitigation.

Enrollment is limited to ensure the quality of the case studies and applications and provide the optimal learning environment.

WHO SHOULD ATTEND

This three and a half day course is targeted to four distinct groups:

- **Senior Management** looking to gain a firm grasp of the financial risks facing their organizations, make more effective business decisions and use ALM strategically, beyond risk mitigation and compliance
- **ALM Practitioners** perhaps already well versed in the underlying theory but who want to gain further deep insight into the tools and techniques that are used in industry practice today
- **Professionals** looking to enter into the field of ALM and who are willing to invest some additional time pre-course to learn the basic concepts
- **Actuaries** looking to gain a more in-depth knowledge of this key area of practice and fulfil CPD programme requirements or PD credits towards their FSA designation

WHAT YOU WILL GAIN

This course takes the participant beyond the theory that can be learned in text books and provides a unique hands-on training experience not found anywhere else. In addition to the case study approach which is used heavily, the participant will learn and apply various ALM tools and techniques to quantify the risk exposure and execute various ALM strategies. Case study groups will be carefully selected to ensure complementary backgrounds. Participants can expect the following:

- Learn how to implement ALM as a strategic decision making framework to gain competitive advantage and increase organizational value
- Ensure that appropriate policies and control procedures are in place
- Practice advanced techniques for measuring risk exposure
- Learn the limitations and pitfalls of various risk metrics
- Learn how to understand and effectively communicate risk exposure and how to make more effective decisions
- Formulate an ALM strategy
- Execute a dynamic hedging strategy with equity guarantees
- Produce an ALM report that effectively communicates the exposure
- Participate in a mock ALM Committee meeting

Pre-reading material will be provided so that valuable class time is not spent covering topics that may already have been learned in advance by some and to ensure a threshold level of knowledge for all participants.

LAPTOP COMPUTERS

Course delegates are required to bring their own personal laptop computer to be used during the course (Note to visiting delegates: remember to bring a European 220V power adaptor). Required software includes Microsoft Excel (2000 or later; with macros enabled) and Adobe Acrobat Reader (5.0 or later)¹. A CD drive is necessary.

¹Adobe Acrobat Reader can be downloaded at www.adobe.com

CONTINUING PROFESSIONAL DEVELOPMENT

Members of the Institute of Actuaries / Faculty of Actuaries may find this event useful for their CPD programme and you may consider claiming up to a maximum of 33 hours for this event.

Members of the Society of Actuaries should visit the SOA Web site (www.soa.org) for information on PD credits.

ATTIRE

Business casual attire is appropriate for this seminar.

ABOUT

NEXUS GENERATIONS

Nexus Generations was founded in 2002 to provide actuarial consulting services and advanced risk management solutions to the financial services industry. More information about Nexus Generations is available at www.nexusgenerations.com

SOCIETY OF ACTUARIES

The Society of Actuaries is a nonprofit professional society of 17,000 members involved in the modeling and management of financial risk and contingent events. The mission of the SOA is to advance actuarial knowledge and enhance the ability of actuaries to provide expert advice and relevant solutions for financial, business and societal problems involving uncertain future events.

The Actuarial Profession

making financial sense of the future

INSTITUTE OF ACTUARIES

The Institute of Actuaries serves the public interest to promote knowledge and research in all matters relevant to actuarial science; to regulate the practice of the profession; to promote, uphold and develop the highest standards of professional education, practice and conduct; to promote the status of the actuarial profession; and to be a regulatory body.

FACULTY OF ACTUARIES

The Faculty of Actuaries was formed with the object of uniting in one body those practising the profession and of promoting the studies necessary thereto, and furthering the objects in which as members of the same profession they had a common interest.

FACULTY

K. RAVINDRAN, PH.D.

Dr. K. (Ravi) Ravindran is the founding principal of Annuity Systems Inc. which provides risk management systems to companies globally. Dr. Ravindran has worked with companies worldwide in all aspects of the risk management process including building the models, implementing the systems, designing the processes, ensuring controls, and formulating and executing hedges. He has personally managed the risk exposure associated with Variable Annuity products on assets under management of over USD 60 billion and has provided risk management consulting on the equity exposure associated with assets under management of almost USD 200 billion. Dr. Ravindran has also helped risk-manage Equity Indexed Annuity business and has provided extensive risk management services to the energy markets.

Dr. Ravindran ran the exotic derivatives desk for Toronto Dominion Bank globally and has executed derivatives trades for clients as part of his risk management services. He has traded and made markets in nearly every category including equity, interest rate, currency, commodity, mortality and credit.

Dr. Ravindran was previously an Adjunct Professor at the University of Waterloo and the University of Calgary. He is the author of the book "Customized Derivatives: A Step-by-Step Guide to Using Exotic Options, Swaps, and Other Customized Derivatives". Some of his other articles have formed part of the Society of Actuaries examination syllabus.

CHARLES L. GILBERT, FSA, FCIA, CFA

Charles L. Gilbert provides Asset Liability Management consulting to the financial services industry. Prior to forming his own firm in 2002, Mr. Gilbert was the leader of the Asset Liability Management initiative for Tillinghast – Towers Perrin in North America.

Mr. Gilbert is the chairperson of the Society of Actuaries Exam Committee for Course 8V – Investments and has been active within the Education and Examination Committees since 1994. He is also chairperson of the Canadian Institute of Actuaries Working Group on Asset Liability Management, co-founder of the Asset Liability Management Practitioners Association in Canada, chairperson of the Society of Actuaries Task Force on ALM Principles, representative for the Canadian Institute of Actuaries on the International Actuarial Association Financial Risks Committee, a member of the Society of Actuaries Risk Management Task Force, a director of the Board of the Canadian Institute of Actuaries, secretary of the Society of Actuaries Investment Section Council, a member of the Canadian Institute of Actuaries Practice Standards Council, and a member of the Society of Actuaries Finance Practice Advancement Committee. Mr. Gilbert is the immediate past chairperson of the Canadian Institute of Actuaries Committee on Investment Practice.

Mr. Gilbert has conducted training sessions for the Office of the Superintendent of Financial Institutions on Asset Liability Management and is a frequent speaker and moderator at industry gatherings.

MOSHE ARYE MILEVSKY, PH.D.

Moshe A. Milevsky is an Associate Professor of Finance at the Schulich School of Business at York University, and the Executive Director of the Individual Finance and Insurance Decision Centre, in Toronto, Canada.

Dr. Milevsky has worked as a consultant for a variety of global companies in the financial services sector including ScotiaMcLeod, AIM/Trimark, Investors Group, Merrill Lynch, Bank of Montreal, CIBC-Wood Gundy, Manulife Financial, American International Group, AXA Group, Keyport Insurance, Fortis Group, Ibbotson Associates, TIAA-CREF Institute, National Life, Industry Canada, Standard Life, The State of Florida and the Central Bank of Uruguay.

Dr. Milevsky has received numerous awards and research grants and has authored over 30 research papers, which have been published in the Journal of Risk and Insurance, Insurance: Mathematics and Economics, The Journal of Financial and Quantitative Analysis, The Journal of Derivatives, The Journal of Financial Engineering, RISK Magazine and the Canadian Investment Review. His innovative research has been cited in Business Week, The Wall Street Journal, The New York Times, Barron's, Fortune and Money Magazine, and he currently writes a monthly column for the National Post Business magazine.

He is the founding co-editor of the Journal of Pension Economics and Finance published by Cambridge University, which is the leading academic outlet for research in pensions and retirement planning issues.

ROBERT R. REITANO, PH.D., FSA, MAAA

Robert R. Reitano is Senior Vice President and Chief Investment Strategist of John Hancock Financial Services in Boston. He is the Chief Investment Officer, Board Member and Chairman of the Committee of Finance for John Hancock Variable Life Insurance Company and Investors Partner Life Insurance Company, and Board Member of other John Hancock subsidiaries. He is Chairman of three investment oversight committees, responsible for the Company's Pension Plans, 401(k) plans, and its Variable Series Trust. He also serves as the Company's Derivative Supervisory Officer under the New York Insurance Department approved Derivative Use Plan.

Dr. Reitano has been a member of several industry task forces and committees and a frequent speaker at industry gatherings. He has presented several educational seminars on his research for the Society of Actuaries. His award winning papers have appeared in the Journal of Portfolio Management, the North American Actuarial Journal, the Transactions of the Society of Actuaries and the Actuarial Research Clearing House.

Dr. Reitano serves on the editorial staff of several finance and actuarial journals and is an Adjunct Professor of the Mathematics Department of Boston University, where he teaches courses in the Fundamentals of Finance, and Computational Methods of Mathematical Finance, in the department's Master of Arts program in Mathematical Finance.

ANDREW D. SMITH, BA

Andrew D. Smith is Partner with Deloitte in London, England. He leads a team of analysts and IT specialists who develop, support and market Deloitte's flagship capital market modelling technology: The Smith Model.

For many years Mr. Smith has been at the forefront of developing stochastic investment models for use in Asset Liability Management and pricing. He has led technical projects on multinational arbitrage-free yield curve models and ways of modelling discontinuous price processes. He has also worked with stochastic models on the liability side, and has experience in modelling such delicate issues as premium cycles, reserving variability, bonus strategies, new business elasticity, frictional costs, option pricing and quantitative operational risk measures.

Mr. Smith has published many papers in insurance, pensions and financial matters. In 1996 he won the Institute of Actuaries' prize for his paper "How Actuaries can use Financial Economics", and another prize in 2002 for his joint paper "Corporate Bond Models". Mr. Smith serves actively on a number of professional working parties. He is a spirited critic of actuarial mumbo jumbo, and is well-known for his ruthless debunking of financial myths. He is frequently quoted in the press, and is widely respected as an entertaining and informative conference speaker. Readers of The Actuary magazine in 2003 voted Mr. Smith the second greatest British actuary ever.

ALM ESSENTIALS

- ▶ **ALM Essentials** is designed to provide a review of fundamental ALM concepts. This full day course consists of lectures and practice sessions aimed at supplementing the pre-reading material and helping prepare participants for the intense Techniques and Practices that will follow.

- 7:00 Registration
- 7:30 Breakfast
- 8:00 • **Welcome, Course Overview and Introductions**
C. Gilbert
- **Overview of ALM Risk Metrics and Strategies**
C. Gilbert and A. Smith
- **Partial Durations and Convexity**
R. Reitano
- 10:00 Break
- 10:30 📁 **Calculate risk metrics and analyze exposure**
R. Reitano
- **ALM Framework Implementation**
C. Gilbert
- 12:00 Lunch
- 13:00 • **Financial Markets (Focus on Bonds)**
K. Ravindran
- **Market Mechanics**
A. Smith
- 14:30 Break
- 14:45 • **Financial Economics—Review of Essential Concepts**
M. Milevsky
- **Portfolio Theory**
M. Milevsky
- 📁 **Determine asset mix using efficient frontier analysis**
M. Milevsky
- 16:00 End

- 14:45 Break

15:00  **ALM Techniques and Strategies—equity risk**
C. Gilbert and K. Ravindran

 **Dynamic Hedging**
K. Ravindran

17:00 End

WEDNESDAY, JUNE 23, 2004

TECHNIQUES AND PRACTICES—DAY 4

8:00 Breakfast

8:30  **Execute dynamic hedge for variable annuity**
K. Ravindran and A. Smith

 **ALM Practices**
C. Gilbert and A. Smith

 **Policies and Controls**
R. Reitano

10:30 Break

10:45  **Risk Reporting and Communication**
C. Gilbert, M. Milevsky, K. Ravindran, R. Reitano and A. Smith

 **Prepare ALM Report**
C. Gilbert

12:00 Lunch

13:00  **Review ALM practices of leading insurance companies**
C. Gilbert, K. Ravindran, R. Reitano and A. Smith

13:30  **“Battle Stories from the Trenches”**
A. Smith

14:30 Break

14:45  **Participate in mock ALM Committee meeting**
C. Gilbert, K. Ravindran, R. Reitano and A. Smith

16:45 Review and Closing Remarks
C. Gilbert

17:00 End of Course

KEY

 Lecture

 Case study

 Application

 Open forum

CASE STUDY

The case study approach will be used heavily throughout this course. Participants will interact with other industry professionals and learn through doing. Case studies for this course include:

- Review ALM practices of leading insurance companies
- Rebalance Portfolio (recommend trades based on existing exposure and calculate resulting exposure)
- Participants will participate in a mock ALM Committee Meeting
- Develop an ALM strategy for a block of business

Small workgroups will be assigned for the case studies. Some case studies will require the use of a laptop computer.

APPLICATION

Applications are hands-on training exercises where participants learn by applying tools and techniques to real life examples. Applications covered in this course include:

- Calculate interest rate risk and equity risk exposures
- Bootstrap the term structure and calculate implied forward curve
- Use stochastic techniques to develop a risk profile
- Prepare ALM report
- Quantify the value added by ALM
- Execute a dynamic hedging strategy for a product

The exercises in the application sessions are designed to be completed by each participant individually. All applications require the use of a laptop computer. ALM tools and analytics will be provided.

WEDNESDAY, JUNE 23, 2004

WORKSHOP FOR SENIOR MANAGEMENT AND ALM PRACTITIONERS

18:00 Reception
Reception with faculty for Thursday attendees

21:00 End

THURSDAY, JUNE 24, 2004

WORKSHOP FOR SENIOR MANAGEMENT AND ALM PRACTITIONERS

- This structured **Workshop** begins with a three hour networking reception following the conclusion of Asset Liability Management Techniques and Practices. Senior Management and ALM Practitioners will have an opportunity to address their specific issues of interest and share areas of concern through focused debate with other experts in the field. Discussion points will be compiled by staff on site leaving participants unencumbered by note-taking.

8:00 Breakfast
Breakfast with assigned seating

9:00 Focus Group Discussion Round Tables

 Table A: *Determining Appropriate Liability Benchmarks*
C. Gilbert

9:00  Table B: *Organizational Structure*
R. Reitano

 Table C: *In-depth Issues Facing the ALM Practitioner*
A. Smith

 Table D: *Topics To Be Determined At Meeting*
K. Ravindran

10:30 Break

11:00  Participate in mock Board meeting
C. Gilbert, K. Ravindran, R. Reitano and A. Smith

12:30 Lunch
Lunch with sign-up seating by topic

K. Ravindran

16:00 Break

16:30 Question and Answer
C. Gilbert, K. Ravindran, R. Reitano and A. Smith

17:30 End of Workshop

COURSE MATERIAL

PRE-COURSE PACKAGE

1. Detailed Course Overview
2. Pre-reading Package
3. Bibliography / List of Suggested Background Readings
4. SOA ALM Specialty Guide
5. Survey Questionnaire
 - (used to determine group assignments for case study, focus presentations)

ON-SITE PACKAGE

1. Handouts of all presentations (bound copy and CD)
2. ALM Tools (coded in Excel)
 - Bootstrapping techniques
 - Price sensitivity charts and statistics
 - Approximation techniques using Taylor Series Expansion
 - Impact of changes in interest rates on economic value
 - Stochastic models
 - Risk profile
 - Replicating portfolios and hedging techniques
 - Calculating volatility and building correlation matrices
 - Dynamic hedging techniques
3. Case Study Material
 - Annual reports
 - Regulatory frameworks regarding risk management
4. Sample Policy Templates
 - ALM Policy Statement and Procedure Manual
5. Sample ALM Report Template
6. ALM Committee Package
 - Agenda
 - Minutes
 - Reports
7. Group Assignments

ACCESS TO FACULTY

In addition to scheduled class time, questions and discussion are encouraged outside of the lectures and practice sessions. Participants will have the ability to interact with faculty informally and after hours throughout the course.

HOTEL INFORMATION

Conrad London
Chelsea Harbour
London SW10 0XG, United Kingdom
Phone: 44 (0) 20 7823 3000
Fax: 44 (0) 20 7351 6525

ROOM RATES

Taxes not included

Single or double occupancy:

- Chelsea View £205.00
- Marina View £225.00
- Thames View £255.00

Cutoff date:

Friday, May 21, 2004

We have arranged for reservations to be made via telephone. To reserve the rate quoted in the brochure, the following procedures should be completed:

- Make your reservations by the cut-off date (*Friday, May 21, 2004*)
- Use the phone number quoted in this brochure
- Identify yourself as part of the Society of Actuaries

Rooms are available at the rate quoted above as long as there are rooms remaining in the Society of Actuaries' block or until the cutoff date of Friday, May 21, 2004. After this date, rooms are on a space and rate available basis.

By reserving your room at the Conrad London, you are helping fulfill our contractual obligations with the hotel, and ultimately reducing the overall cost of the seminar.

LOCATION

The Conrad London is located 14 miles, 40 minutes from Heathrow Airport. Typical taxi fare is £40.00

AIRLINE

Please see the SOA Web site (www.soa.org) for airline discount information.

REGISTRATION

You may register using two methods:

Register **ONLINE** (credit card required):
At www.soa.org. Click on Meetings/Seminars.

Register **BY MAIL**:
Mail your registration form with check payable to:
Society of Actuaries
ALM Seminar - London
P.O. Box 71293
Chicago, IL 60694

If you wish to send a wire transfer as payment please email us at wiretransfer@soa.org for specific wire transfer instructions.

Payment in full must accompany your registration and must be made in U.S. funds or equivalent.

REGISTRATION CONFIRMATION

Confirmations are e-mailed upon completion of registration.

REGISTRATION FEE

Registration fees are shown separately for ALM Essentials, Techniques and Practices and the Workshop. Your registration fee includes:

- All breakfasts, lunches and networking receptions as indicated
- All related course materials including policy templates and utilities
- Opportunities for one-on-one Q&A with members of faculty

FEE	ALM ESSENTIALS	TECHNIQUES & PRACTICES	WORKSHOP
Member of an Actuarial Organization	£450	£1960	£500
Non-Member	£490	£2070	£540

*See schedule for details.

CANCELLATION

All cancellations must be made in writing no later than May 30, 2004 to the Customer Service Department (cancel@soa.org) in order to obtain a refund of the registration fee. The Society of Actuaries will refund the registration fee, minus a processing fee of \$500. Refund requests received after the conclusion of the seminar will not be honored. The Society reserves the right to cancel any seminar if conditions warrant. In the event of such cancellations, registration fees will be refunded in full. We are not responsible for any discounted fares or hotel penalties that an attendee may incur due to cancellation.
